WARRANTY / STANDARD TERM AND CONDITIONS

1. There are no warranties as to the goods which extend beyond the descriptions of the face thereof.
2. The warranty of merchantability applies only in the case of goods manufactured by us to the requirements of a specifically identified military or industry specification. It is limited to a warranty of conformance to the performance requirements therefore.

The provision of this paragraph may only be modified by writing specifically stating the modification.

3. There is no warranty of fitness of the goods for a particular purpose.
4. The exclusive remedies of buyer of any subsequent user if the goods (in case of non-conformance) or defectiveness of the goods) are limited to:

- i. Return of the goods at buyer's expense and repayment of the price.
- ii. Repair or replacement of the goods.

Buyer is under duty to inspect the goods promptly after delivery and report immediately any claimed defects or non-conformity. Such report must be made prior to inclusion of the goods as a part of any other product or to their resale by buyer.

In no event is seller liable or otherwise responsible for consequential damages suffered or claimed by buyer of any subsequent user of the goods. The exclusive and sole remedies of buyer and any subsequent user are those set forth in this paragraph.

PRODUCT CHANGE NOTIFICATION POLICY

Customers who require product change notification (PCN) will be notified 90 days prior to implementation of any changes in design, processing, inspection, location of manufacture, or tooling that affect fit, form and function. Fit form and function will be determined by applicable Positronic catalogs or customer generated specifications.

Fit, Form and Function is defined as follow:

Fit: The ability of an item to physically interface or interconnect with or become an integral part of another item as defined by a specification.

Form: The shape, size dimension, mass, weight and other visual parameters, which are defined by a specification.

Function: The electrical, mechanical, and environmental performance characteristics, which are defined by a specification.

Positronic will issue information on our PCN form. The information can be supplied on a customer form, if required.
